**Subject:** Gold King

Eric, Steve also wanted to see if you could survey the Gold King that's near Red and Bonita? However, I just checked on History Colorado's Compass site, and it appears that you surveyed it in 1999 and determined it not eligible.

Steve, will this suffice EPA's Section 106 requirements, or will you need an updated survey by Eric? I think if you talk with SHPO and then just send them a cover letter stating you're going to be doing construction work in 2015 at this site, that will be fine, since it has already been determined not eligible any way. But let us know if you would like Eric to do any further surveying.

Thanks, and have a great evening!
